

ZERO WASTE LIVING

THE HOTEL AREA

The hotel is located in Ierapetra, an area that has developed significantly in recent years. The sandy beach in front of the hotel is awarded with the Blue Flag as we keep all the necessary criteria. The town of Ierapetra provides traditional taverns, cafes and seaside bars. There are also several mini & super markets that you can find various products that you may need, like jewelers, shops with local products, souvenirs and pharmacies. The distance of Ierapetra town, is just 2,7 km .

NATURAL ENVIRONMENT

The Gorge of Mylonas or Saint John is located 18km east of Ierapetra. It starts near the village of St. John, at an altitude of 500m, and ends at the beach of Kakia Skala. Descending the gorge from Saint John is impossible, as it is stopped by a high waterfall, and canyoning equipment is necessary. However, the high fall of the canyon of Mylonas can be accessed through two ascending trails that start near the beach of Kakia Skala.

TRADITIONS AND CUSTOMS

Crete, the island of hospitality and tradition. It is important when we visit a place to learn about the culture that hides and the traditions, living the experience and protecting each area whether these are museums, either cities, villages and beaches to be maintained for the next Generations. The tradition will be perceived in many parts of the city, such as if you are visiting places with traditional music and Cretan dances. Areas that produce traditional products, such as milk, cheese, olives and you live in this experience. Visit various villages where they keep these traditions such as the villages: Messeleroi, Malles, Kalamafka, Myrtos, where you will find various traditional taverns to eat local food. Our island also has a natural heritage, and you have to discover the natural paradise that hide some blue beaches in our island. The most popular beaches in Lassithi are Chrissi island & Vai.

LEAVE A LIGHTER FOOTPRINT

The amenities that we are using are:

- Natural & organic formulae for the skin
- Hand & body care
- Refillable & recyclable bioplastics
- Vegan & cruelty-free
- Gentle fragrances

CONSERVE WATER

Don't forget to use the water as long as you need it.

USE 3R SYSTEM

REUSE

We provide to our clients reusable bags in order to avoid the plastic bags.

RECYCLE

We have placed waste bins in public areas to separate the recyclable wastes. You could also contribute to this action, as well as you could reduce the paper consumption, if you wipe your hands in the towel.

REDUCE

The Energy Saver installation, adapt the operation of the A/C to close automatically, when the doors of the balcony are open. You could contribute with your side, if you operate the air condition in 24 degrees than 25.

Remove your card from the recess, when you leave from your room, with this way you contribute to save energy, as automatically the lighting and the heating turned off.

There is a special card that you can place it in your bed, to inform us that you don't prefer to change your bed linen daily Furthermore, there is a special labeling in your bathroom, which guide you to keep the same towel if it's not dirty, in order to reduce the unnecessary washes as well as the water consumption.

A close-up photograph of dark green, glossy leaves with numerous small, clear water droplets resting on their surfaces. The leaves are layered, creating a sense of depth. The lighting is soft, highlighting the texture of the leaves and the spherical shape of the droplets.
